The sport of Cowboy Action Shooting (CAS) consists of shooting at targets, many of which are steel, with live lead ammunition. For the safety of all participants and spectators, ***All Ammunition Used Must Be Loaded To Single Action Shooting Society (SASS) Specifications.*** If you are uncertain of your ammunition speed or type, please contact the match director for a ruling (match director's rulings are final).

Participation in this sport is done so with the knowledge that shooting firearms can be inherently dangerous and it is impossible to guarantee that occasional lead splatter will not enter the shooting and spectator area.

The participant may, at the discretion of the match director be escorted off the TCSC grounds for a violation of any of the above, the match director will make the final determination on any of the above mentioned, and the match director's rulings are deemed to be final.
